Dear Ms. Everitt:

The Colorado Department of Health Care Policy and Financing is pleased to submit to the Centers for Medicare and Medicaid Services the responses to questions related to the Colorado Family Planning Medicaid Expansion Project 1115 Waiver.

If you have any questions, please contact Mary Marchioni at (303) 866-5927, or Jeanette Hensley, Manager of Acute Care Benefits at (303) 866-3861.

Sincerely,

Richard C. Allen
Director
Office of Medical Assistance

TABLE OF CONTENTS

	Pages
I. Questions and Responses.....	3
11. Appendix A Family Planning Codes.....	6
111. Appendix B Medical Referral Sheet.....	10
IV. Appendix C Listing of Colorado Medicaid Rural Health Centers.....	11
Essential Community Providers.....	13
V. Appendix D Map of Colorado Cummunity Health Center Sites.....	.14
VI. Appendix E HRSA Denver Field Offices – All Colorado Sites.....	17
VII. Attachment I Colorado Organized Health Departments and Local Nursing Services.....	23

1. Will condoms be provided?

Services provided under the waiver include all FDA approved methods of contraception, including condoms (both male and female).

2. Which Title X services will be provided?

All Title X required services shall be provided. These services include: a comprehensive health/medical history, initial/annual physical exams (including breast and pelvic exams), laboratory tests such as pap smears, sexually transmitted disease (STD) screening tests, patient education and counseling about birth control, education about reproduction, education about sexuality and STDs, referrals for other medical, referrals for physical and social problems beyond the scope of family planning or for follow-up treatment of abnormal pap smears, dispensing/administration of Federal Drug Administration (FDA) approved contraceptives. Additional physical exams and laboratory work as deemed necessary for contraceptive-related issues are included in the global rate.

The scope of work also includes the treatment of minor gynecological disorders within the scope of the treatment facility that would include vaginitis and urinary tract infections (however, treatment of these infections is not included in the global rate). The following contraceptive methods can be billed in addition to the global rate: Norplant insertion/removal, Intrauterine Device (IUD) insertion/removal, Medroxyprogesterone injection, Lunelle, and Mirena. (See Appendix A for a complete list of Colorado Family Planning Codes)

3. How was the number (2649) of clients not currently receiving family planning services derived?

The number 2649 is the sum of estimations from three sets of women.

- A. An estimated 1,659 are women who in 1999 had a baby under Medicaid, and whose benefits expire within sixty days of the delivery. This number is just under ten percent of all the women delivering annually under Medicaid (17,398).
- B. An estimated 890 are women from a target population who are in need of publicly subsidized family planning services but who currently have no source of care. The estimate (890) is just over 1 percent of the 78,762 "other women in need".
- C. An estimated 100 are women who come from the Child Health Plan Plus either as enrollees or potential enrollees.

The sum of estimates 1,659 plus 890 plus 100 is equal to 2,649.

4. Upon what is the "5 percent decrease in pregnancies" based?

The five percent decrease in pregnancies refers to the decline in the fertility rate among the women who previously were not receiving any publicly supported contraceptive care and whose income was at or below 150 percent. We anticipate that their pregnancy rate will drop from an estimated 176 births per 1000 women to 167 (a decline of 5 percent). These women will not be targeted for services, but are eligible under the waiver and some will receive contraceptive coverage.

The Department also estimates that the pregnancy rate among the women served through Baby Care Kids Care will drop by 33 percent; from an estimated 330 births per 1000 women per year to 221 births. This population has an occurrence of rapid repeat pregnancy, a factor that makes them eligible for Medicaid coverage. According to the Colorado Pregnancy Risk Assessment Monitoring System (PRAMS) survey data, the identified births are overwhelmingly unintended and might be averted with contraceptive intervention. The women with high potential for rapid repeat pregnancy compose the target population for the Family Planning waiver.

The Department does not predict declines in the pregnancy rates of the women currently being served through Title X, CHP+, or community health centers. The current clients receiving Title X and CHP+ services are assumed to have lower rates of pregnancy, because they have access to effective contraceptive services.

When the entire group of women with income at or below 150 percent of poverty and in need of subsidized contraceptive services is considered as a whole, the pregnancy rate of the whole group actually drops by 13 percent (the weighted average of changes in fertility of each subgroup and the number of women in each subgroup).

5. Give some detailed information about how the primary care requirement might be fulfilled.

All Title X agencies are required to have a list of referral resources of which to refer clients for non-family planning related health care needs. Community Health Centers (CHC) providing Family Planning services through the waiver would refer to themselves for primary care. Private physicians could either provide the primary care themselves, or refer to the public sector (e.g. CHCs, etc.)

A current referral book is kept at all clinic sites. A completed form is given to the patient when a referral is made, and a copy of the document is filed in the patient's chart.

To provide a choice of providers for the patient it is standard practice to make three referrals (See Appendix B). All the Primary Care referrals would require the patient pay for the service since services outside the scope of family planning will not be covered under the waiver.

6. What methods of evaluation might be used to verify that the clients are actually receiving the comprehensive services under the Family Planning Waiver?

In addition to the project evaluation procedures previously reported (i.e. patient satisfaction surveys, and provider satisfaction surveys, etc.) the Colorado Department of Public Health and Environment – Women's Health Section and the Department shall have joint responsibility for quality assurance and program evaluation. Staff from both agencies will be involved in the performance of on-site provider reviews. A random sampling of charts will be reviewed from contracting sites on a quarterly or semi-annual basis. The sites for review will be chosen on a rotating basis. Charts shall be evaluated for documentation of: medical necessity, a service plan with identified goals, recommended services, dates and times of service provided, and verification of progress toward goals.

7. Provide a list of all sites included in the delivery network.

Please refer to the following appendices and attachment which provide listings of the network of providers.

- Appendix C : Colorado's Rural Health Centers
Colorado Medicaid Essential Community Providers
- Appendix D: Site Map of Community Health Centers
- Appendix E: Colorado's HRSA Denver Field Offices
(Federally Qualified Health Centers)
- Attachment I: Colorado Organized Health Departments and
Local Nursing Services

The lists included are not finite. The Department may include additional sites to the network of facilities to provide family planning services.

APPENDIX A
COLORADO MEDICAID CODES

Codes: Family Planning (Included in Bundled Rate)

99201	Office or other Outpatient visit for eval and management of a new patient
99202	Office or other outpatient visit (expanded)
99203	Office or other outpatient visit
99204	Office or other outpatient visit
99205	Office or other outpatient visit
99211	Office or other outpatient visit of established patient
99212	Office or other outpatient visit
99213	Office or other outpatient visit (expanded)
99214	Office or other outpatient visit
99215	Office or other outpatient visit
99241	Office consultation
99242	Office consultation
99243	Office consultation
99244	Office consultation
99245	Office consultation
99271	Confirmatory Consultation
99272	Confirmatory Consultation
99273	Confirmatory Consultation
99274	Confirmatory Consultation
99275	Confirmatory Consultation
99381	Initial preventive medicine (new patient)
99383	Initial preventive medicine
99384	Initial preventive medicine
99385	Initial preventive medicine
99386	Initial preventive medicine
99391	Periodic preventive medicine (established patient)
99393	Periodic preventive medicine
99394	Periodic preventive medicine
99395	Periodic preventive medicine
99396	Periodic preventive medicine
99401	Preventive Medicine counseling (15 minutes)
99402	Preventive Medicine counseling (30 minutes)
99403	Preventive Medicine counseling (45 minutes)
99404	Preventive Medicine counseling (60 minutes)
99411	Preventive Medicine counseling (group: 30 minutes)
99412	Preventive Medicine counseling (group: 60 minutes)
99420	Administration and interpretation of health risk assessment

99000	Handling and/or conveyance of specimen for transfer to laboratory
99001	Handling and/or conveyance of specimen
99002	Handling, conveyance, and/or other service in
99024	Postoperative follow-up visit, included in global service
36415	RT V/P or finger/heel/ear stick-collect
57170	diaphragm or cervical cap fit w/instruction
81000	Urinalysis, by dip stick or tablet reagent for bilirubin, glucose, etc.
81025	urine pregnancy test (by visual color comparison)
82950	glucose test
82951	glucose tolerance test (GTT)
82952	Glucose added samples
83020	hemoglobin electrophoresis
84702	chorionic gonadotropin test
84703	chorionic gonadotropin assay
85013	hemotocrit (blood count spun microhematocrit)
85014	hematocrit (blood count, other than spun hematocrit)
85018	hemoglobin (blood count)
86592	blood serology, qualitative (syphilis, precipitation or flocculation)
86701	HIV-1
86703	HIV-1, HIV-2, Single Assay
86706	Hep b surface antibody (hepatitis B surface antibody (HBSAB)
88150	Cytopath, c/v, manual
88151	cyto smears cervical/vag (clinical)
87210	Wet Mount
G0001	Drawing blood for specimen
Q011	Wet mounts / W preparations
ICD 9	(Included in Bundled Rate)
96.17	Insertion of Vaginal Diaphragm
87.24	Repl and Refit of Vaginal Diaphragm

Prescriptive Contraceptives (Included in Bundled Rate)

99070	Condoms
99070	Female Condoms
J 8499	Demulen 1/35, 28 day
58499	Demulen 50, 28 day
58499	Ethrostep
58499	Levlen, 28 day
58499	Levlen, EBC
58499	Loestrin 1.5/30, 28day
58499	Loestrin 1/20, 28 day
58499	Micronor, 28 day refill
58499	Modicon, 28 day refill
58499	Nordette, 28day

58499	Ortho Cyclen, 28 day
58499	Orthocept , 28 day
58499	Ortho Novum, 1/35, 28day
58499	Ortho Novum 1/50, 28day
58499	Ortho Novum 777, 28day
58499	Ortho Tricyclen, 28 day
58499	Plan B EC
58499	Preven/w preg.test
58499	Tri-Levlin, 28 day
58499	Triphasil, 28 day
99070	Diaphragm, Ortho Allflex 55
99070	Diaphragm, Ortho Allflex 60
99070	Diaphragm, Ortho Allflex 65
99070	Diaphragm, Ortho Allflex 70
99070	Diaphragm, Ortho Allflex 75
99070	Diaphragm, Ortho Allflex 80
99070	Diaphragm, Ortho Allflex 85
99070	Diaphragm, Ortho Allflex 90
99070	Diaphragm, Ortho Coil 60
99070	Diaphragm, Ortho Coil 65
99070	Diaphragm, Ortho Coil 70
99070	Diaphragm, Ortho Coil 75
99070	Diaphragm, Ortho Coil 80
99070	Diaphragm, Ortho Coil 85
99070	Diaphragm, Ortho Coil 90
99070	Diaphragm, Koroflex 60
99070	Diaphragm, Koroflex 65
99070	Diaphragm, Koroflex 70
99070	Diaphragm, Koroflex 75
99070	Diaphragm, Koroflex 80
99070	Diaphragm, Koroflex 85
A4261	Cervical Cap (Prentif) Size 22
A4261	Cervical Cap (Prentif) Size 25
A4261	Cervical Cap (Prentif) Size 28
A4261	Cervical Cap (Prentif) Size 31

Prescriptive Contraceptives (NOT included in Bundled Rate.. b lled separately)

X2300	I U D's
53490	IUD, Mirena
57300	IUD, Copper T380A Paragard
53490	Lunelle
53490	Mirena

(NOT included in Bundled Rate)

00800	Anesthesia procedures for lower abdominal wall
00840	Anesthesia for intraperitoneal procedures in lower abdomen
00920	Anesthesia for procedures on male genitalia
55200	Vasectomy
55300	Vasectomy for vasograms, seminal vesiculograms, or epididymograms
55535	Excision (abdominal approach)
58600	Tubal ligation
49320	Laparoscopy, abdomen, peritoneum,. and omentum, diagnostic
49321	Laparoscopy, surgical with biopsy
11975	insertion of implantable contraceptive capsules
11976	removal implant contraceptive capsules
11977	removal with reinsertion of implantable contraceptive capsules
58300	insertion of intra-uterine device (IUD)
58301	removal of intrauterine divice (IUD)
J1055	Injection, Medroxyprogesterone, 150MG
57300	Intrauterine copper contraceptive (T38A)
X2305	Progestasert

ICD 9 Codes (NOT included in Bundled Rate)

63.70	Male sterilpro, NOS
63.71	Ligation of Vas Deferens
63.72	Ligation of Sperm Cord
63.73	Vasectomy
66.21	Bilateral End Lig and Crus of Fallop Tubes
66.22	Bilateral End Lig and KIV of Fallop Tubes
66.29	Other Bilat End Destru or Occul of Fall
66.30	Other Bilat Lig and Crushing of Fall Tubes
66.32	Other Bilat Liga and Division of Fall Tubes
66.39	Other Bilat Destruction or Occlu of Fall Tubes
69.7	Insertion of Intrauterine Contra Device

APPENDIX B

MEDICAL REFERRAL SHEET

DATE _____

NAME _____ TELEPHONE: (H) _____
(W) _____

ADDRESS _____ BIRTHDATE: _____
Street City State Zip

REFERRED TO:

- A.
- B.
- C.

REASON FOR REFERRAL: _____

Clinician Signature _____ Clinic: _____

- Patient’s signature authorizes release of records for this referral. _____

SUMMARY OF PATIENT CARE: _____

This patient may continue use of oral contraceptives. ☐ Yes ☐ No ☐ Not applicable

Physician’s signature _____ Date: _____

The medical provider you choose is up to you. _____ is not responsible for the quality of the services of the referral provider. You should call the provider to find out fees and other terms of service before you make an appointment.
